EXPERIENCE

Intern	sep 2023 - mar 2024
OpenText	Banglore, Karnataka

- As a Security Analyst at OpenText Company, I spearheaded critical initiatives to fortify the product security infrastructure and protect sensitive assets.
- worked on Security issue raised by Fortify Hub.
- Fixed Security issues regarding categories: UnReleased Streams, Path Manipulation, Privacy Violation, Xml External Entity Injection, Privacy Violation, Cross site Scripting, Insecure Randomness,Sql Injection, Mass Assignment etc..

PROJECTS

Form Validation App. ((Java, MySQL workbench, Data Jpa, Html,Thymeleaf template,Postman, Junit)

- In this App we can manipulate database (create, insert ,delete, update, retrieve) by using Jpa Repository
- Form created in templete to take data from the user and access data.

Ticket Booking App. (Java , MySQL workbench, Data Jpa,RestController, cloud, swagger,Circuit Breaker, thymeleaf template, docker)

- In this App by using Rest Template get the data from TicketApp (Provider) which is third party application then make use use of data, i created the restapi(Consumer) to communicate with Provider application
- In we used thymeleaf template to get data from the user through forms and created button to search ticket by ticket number

PERSONAL SKILLS AND COMPETENCIES

- Excellent Communication skills.
- Quick Learner and can easily adapt to new and changing situation.
- Self-motivated achiever, hard work, commitment, teamwork and flexibility.
